EDITORIAL OVERVIEW

Data Centre Solutions – the digital infrastructure information platform industry-leading solutions

Behind virtually every aspect of modern-day life, somewhere in the background is a data centre. Take these facilities away and, as the headlines too often remind us, chaos ensues. So, ensuring the safe, efficient operation of this critical infrastructure is a vital role. The more so as digitalisation becomes ever more pervasive in both the workplace and outside. Data, connectivity, latency, agility, flexibility, scalability, optimisation – these are some of the watch words of the digital age.

And cloud, edge, 5G, hybrid, software-defined, AI and cybersecurity are just some of the most recent technology solutions and ideas developed to address these digital demands. And the data centre is where everything comes together. And that's why Data Centre Solutions (DCS) has such a vital role to play in ensuring the data centre owners, operators, end users, equipment vendors, consultants, systems integrators and IT professionals understand what's going on.

We are confident that the breadth and depth of our DCS digital infrastructure information platform is unrivalled in terms of both quality and quantity. And we're also certain that you won't find a more agile, flexible or knowledgeable media partner when it comes to assisting you achieve your digital marketing objectives.

EDITORIAL THEMES

Our flagship publication Data Centre Solutions (DCS) digital magazine will publish six times in 2023.

Each issue includes industry news, expert analysis, a major contribution from the Data Centre Alliance and its members, case studies and in-depth technology and trends articles.

To mark the significant expansion of the DCS digital infrastructure information platform, we have also introduced a quarterly DCS Video magazine for 2023. Alongside the DCS digital magazine, DCS Video magazine we also publish a weekly DCS Digest digital newsletter, which includes data centre news, blogs and video content.

ZOOM VIDEO INTERVIEW

As many organisations have been forced to re-focus as the pandemic disrupted so many aspects of the business world, new ideas and opportunities have come along. For Datacentre Solutions, one of our major new offerings, developed as a direct response to the ban on physical events, is the Zoom video interview.

Anything from a 15 minute new product pitch, to a half an hour (or longer!), detailed exploration of a major, emerging technology trend have been produced by the Datacentre Solutions multimedia team. The editor asks the questions, and the end result is hosted on our dedicated YouTube channel, is heavily promoted across our multimedia platforms, and is also given to the client for their own promotional purposes.
