EDITORIAL OVERVIEW

SDC Channel Insights – a multimedia delight!

The SDC Channel Insights multimedia digital publication is one in a series of Channel-focused products from leading media organisation, Angel Business Communications.

Well known within the IT Channel market for the highly successful MSH Summit events held in the UK and Europe over the past few years, Angel has continued to develop its portfolio in recent times as organisations begin to adjust to the many challenges and opportunities of today's dynamic, digital, hybrid business world.

The SDC Channel Insights digital magazine was launched to both support our Channel-focused events and to have an independent, authoritative presence within the UK, Ireland and wider European Channel community. Each issue of the digital magazine includes news, articles and interviews focusing on the key technologies and business issues which impact on the IT Channel. We also publish SDC Channel Insights video specials, which contain a series of interviews with key vendor and Channel personnel. As a result, we can rightly claim that SDC Channel Insights is the only truly multi-media Channel focused digital publishing platform.

For 2023 we will publish four issues of SDC Channel Insights plus two video magazine specials, continuing the successful combination of articles and video interviews, and covering all the major business and technology topics that are essential knowledge for the Channel. That's everything from customer experience and IT operations, through the hybrid workplace, change management and sustainability, to 5G and the edge, AI and automation, and cybersecurity.

We're confident that no other Channel-focused magazine has the quality and quantity of multimedia content provided by SDC Channel Insights, underpinned by our editor's 30+ years' experience and the wider 35 year media pedigree of Angel Business Communications. And we're also confident that the combination of Channel events and publications (we also publish a weekly Channel newsletter) in the Angel portfolio provide an unrivalled Channel focus for both our readers and sponsors alike.

MULTIMEDIA + EVENTS

The SDC website provides real-time coverage of the data centre industry, with regularly updated news, blogs and video content. It also hosts access to the SDC digital magazine and the SDC weekly newsletter, as well as acting as a hub for our other multimedia and event activities.

Multimedia-wise, we're developing our expertise and offerings when it comes to podcast, webinar and video content – with both purely editorial and marketing-driven opportunities available. We've found that our relaxed, professional approach when it comes to recording multimedia content, at industry events or over the network, has won us the respect of the data centre industry.

SDC ZOOM VIDEO INTERVIEW

As many organisations have been forced to re-focus as the pandemic disrupted so many aspects of the business world, new ideas and opportunities have come along. For SDC, one of our major new offerings, developed as a direct response to the ban on physical events, is the Zoom video interview.

Anything from a 15 minute new product pitch, to a half an hour (or longer!), detailed exploration of a major, emerging technology trend have been produced by the SDC multimedia team. The editor asks the questions, and the end result is hosted on our dedicated YouTube channel, is heavily promoted across our multimedia platforms, and is also given to the client for their own promotional purposes.
